

## ALEXANDRA SAVRAMIS

301.980.2216 | [alexandra.savramis@gmail.com](mailto:alexandra.savramis@gmail.com) | [GitHub](#) | [LinkedIn](#)

- Fast learner with a can-do attitude as a team player and contributor to other members.
- Demonstrates ownership and responsibility in executing a project from scratch to delivery on time.
- Strong work ethic, clear communication skills and motivation.

## SKILLS

React JS, Redux, Ruby on Rails, JavaScript, jQuery, HTML, SQL, Git, TDD, OOP, CSS, RSpec

## PROJECTS

**WEEKEND PLANNER** | Ruby on Rails, React Native, Redux

[live](#) | [github](#)

*An iOS / Android mobile application designed to build users an intuitive itinerary.*

- Created a cross-platform mobile application with React Native for iOS and Android
- Integrated backend with external APIs, such as Google Places API
- Used open source libraries to expedite the development process

**JUST EAT** | Ruby on Rails (PostgreSQL), React JS, Redux

[live](#) | [github](#)

*Full-Stack web application that allows users to search, discover and review restaurants.*

- Formulated a dynamic single-page ReactJS app allowing for seamless navigation
- Implemented persistent storage of users, reservations, and reviews through PostgreSQL db
- RESTful API through a Ruby on Rails backend
- Utilized backend logic and AJAX requests for handling search queries to generate unique results

**GALAGA (GAME)** | JavaScript, Canvas API, HTML5

[live](#) | [github](#)

*An interactive game built with HTML canvas using Object-Oriented Design.*

- Generated algorithms grounded in physics for character collision
- Keyboard event listeners respond to player movement
- Adhered to standards of OOP patterns, enabling abstraction of functionality into reusable classes

## EXPERIENCE

**Manhattan Productions**

2016 - 2017

*A full service production company that specializes in content creation and editorial.*

- Stephen Colbert Showtime Special - oversaw a team of 5 editors with a quick turnover time
- Copywriter on a pitch for a Dove Campaign - specialized in targeted content creation and visualization of company's intent
- Assistant Editor on a Showtime preview for their hit TV-Series, The Affair

**Netflix - "The Get Down," An Original Series**

2016

- Facilitated communication between 17 departments of over 15 people respectively
- Maintained the schedule of 10 actors, providing a bridge for smooth communication among internal teams and exterior; maintaining credibility, confidentiality, trust and support

## EDUCATION

**CS Fundamentals and Full-Stack Software Development** - App Academy Fall 2018

**BFA** - New York University: Tisch School of the Arts (2012 - 2016). Film & TV Production.
